Ekstra Bladet ★★★★★

Anmeldelse fra Ekstra Bladet:
Danske SACKit har begået årets hidtil bedste oplader til mobile enheder.

Det er dommen, efter Ekstra Bladet de seneste uger har testet den trådløse powerbank kaldet CHARGEit, der på alle måder imponerer.

Ideen med powerbanken er, at du både kan oplade via en ledning, men også lægge enheder, som understøtter trådløs opladning, på toppen af den lille gadget.
